Portfolio: www.adamprows.com

I have been working in technology for over ten years, and love to help people, solve problems, reading, and learning new things. I'm dependable, patient, and intelligent. I have developed international eCommerce websites, created internal reporting tools, and have done front-end and back-end development using HTML, CSS, JavaScript, PHP, and MySQL.

Work Experience

UBook.Us

Aug '18 – Present

Webmaster, Co-Founder – ubook.us

Used the Laravel PHP MVC framework, HTML, CSS, and JavaScript to design and build this website that helps companies book contractors for jobs. Built it alone with an AWS LAMP stack.

Walt USA, LLC

Dec '17 – Nov '18

Webmaster & IT Support – waltusa.com

Used HTML, CSS, PHP, and JavaScript to design and build an internal tracking/reporting website for manufacturing. Used Amazon and Shopify to sell products to retail and wholesale customers. Used QuickBooks to manage inventory and product lists. Maintained a local server and network. Did IT support for coworkers. Helped run the outlet store.

ICON Health & Fitness

Aug '15 – Nov '17

Front-end web developer – iconfitness.com

Used HTML, SCSS, Thymeleaf, and JavaScript to design, build, and maintain international eCommerce websites with a small team.

USU Computer Science Department

Dec '14 – Dec '15

Webmaster – cs.usu.edu

Used HTML, CSS, Bootstrap, and PHP to rebuild and redesign a legacy website while moving to a new CMS. Worked with faculty and staff to keep the website up to date.

USU Career Services

Aug '11 – May '15

Computer support & Web designer – career-services.usu.edu

Used HTML, CSS, Bootstrap, and PHP to rebuild and redesign a legacy website while moving to a new CMS. Made promotional documents and reports with the Adobe Creative Suite. Maintained a dozen office computers.

Education

Utah State University

May 2015

Bachelor of Science – Art Major; Computer Science & Multimedia Minors

Graphic Design, Web Design and Development emphasis

Salt Lake Community College

May 2010

Associate of Science – General Education

Multimedia and computer programming emphasis

Skills (From most to least experience)

- Tools: Adobe Creative Suite, Microsoft Office Suite, Bootstrap CSS, Windows, Mac OS, Debian Linux, Laravel, WordPress, Stripe, Magento, Shopify, Joomla.
- Programming Languages: HTML, CSS, JavaScript/jQuery, Thymeleaf, Git, PHP, MySQL, C# / ASP.NET, Java.

Leadership and Volunteer Service

- Completed the rank of Eagle Scout in The Boy Scouts of America.
- Served two years in the Arkansas area doing volunteer missionary service; my duties included managing a database to create reports for leaders in the area, public speaking, and helping people reach goals.
- Volunteered as the Technology Manager for The Heads Advertising Club, I worked with fellow students to complete advertising and design projects for other clubs at USU.
